Baruch Watters

Does Snow Affect Sound?

Division: International / None

Category: Junior

Region: Beaufort-Delta

City: Inuvik NWT, NT

School: Samuel Hearne Secondary School

Abstract: I wanted to test if snow effects sound. I tested sound intensity at three different test sites, distances and heights above the ground. I hoped to find if this could impact search and rescue.

Biography

My name is Baruch Watters. I love sports; my favorite sports are hockey and soccer. I participate in many school activities, such as indoor lunch time floor hockey, lunch time basketball, and soccer. I love to go outside and play road hockey. My friends and I play at least once a week. When I finish university I hope to become a chef or carpenter. I have come in first, second, and third place for science fair, one of the three with me not even being there. This is my very first time going to the national science fair and I am very excited.
