Amy Waldal

I See You

Division: Physical & Mathematical Sciences / None

Category: Junior

Region: Qu'Appelle Valley

City: Emerald Park, SK

School: White City

Abstract: I tested different household products to see which ones would keep my glasses from fogging. I tested toothpaste, potato juice, peanut butter, shaving cream, shampoo, my own homemade formula, and hand soap. Out of them all, toothpaste worked the best, and shaving cream was the worst. I learned a lot from my project and really enjoyed it.

Biography

My name is Amy Louise Waldal. I have 3 older brothers, married parents, and a dog. I like to sing, dance, skate, draw, and be hyper. I love food and would like to be a chef with my own restaurant. I played basketball for my school this year, and I am in a variety of different clubs. I like going to school and staying active. My favourite colour is blue. My favourite animals are dogs. My favourite number is 2. My favourite letter is A. My favourite sport is skating. My favourite type of music is country. My favourite show is What I like About You. My favourite movies are the Miss. Congeniality movies, Dirty Dancing movies, and Center Stage. My favourite subject is Art. My favourite month is July. My favourite seasons are summer and winter. My favourite province is B.C., although I will probably live in Saskatchewan.
