David Salwinski, Paul Kim

Agents that Destroy Vitamin C

Division: Internationale / Aucun

Catégorie: Junior

Région: Toronto

Ville: Toronto, ON

École: St. Antoine Daniel C.S.

Sommaire: In our project, Agents that Destroy Vitamin C, we wanted to see the affect of freezing, heating, exposing to oxygen, sweetening and adding carbonate water to a variety of fruit and vegetable juices. We used the blue iodine testing solution and the process of titration to test for the vitamin C content.

Biographies

David - I am a Polish boy who is currently attending St. Antoine Daniel Catholic school. My favorite subjects are science and math. I like to participate in many school events as well as play soccer and watch TV. I like to wonder about things that are scientific and I score high average on my report card.

Paul - Hi, my name is Paul, i'm am good at hockey, guitar, violine, cello, drums, piano, soccer and basket ball. I'm an outstanding student in our class. I've always been at the best at science since when i was in grade 1. I am a new Canadian. I've only been in Canada for 2 years. I am also good at computing skills, i took few extra courses in my own for some computer lessons and i am very familier with it. I'm extroversive and know how to talk to other people.
