Nancy Aqqaq

Polar Bear

Division: Engineering & Computing Sciences / None

Category: Senior

Region: Kitikmeot

City: Taloyoak, NU

School: Netsilik School

Abstract: My project is on polar bears. It includes the facts about polar bears, and the effects of global warming, such as causing the sea-ice to melt quickly. This destruction of their natural ecological niche is harming their ability to hunt seal and has caused a decline in the health of their populations.

Biography

I'm Nancy Aqqaq from Taloyoak, Nu. I love to travel and meet new friends, see new places, I love to learn anything and everything I can. One day I would like to become an Environment Technician. I'm in grade 11. I'm on a Northern Youth Abroad Program for Northern youths to experience to live in the south 1st part on the program I went to Nanaimo, BC for 6 weeks and this is my second year so this summer I will be going to Botswana, Africa for 6-8 weeks. I love to babysit. My hobbies are to hang out with friends, be on the net, listen to music. I have won three regional science fairs in a row and twice in a row to the CWSF and it's a great experience to have. I'm interested in applying in the Nunavut Sivuniasavut in Ottawa after I'm done high school and try and interested in moving into a city. I love to teach what I can. I totally believe in myself in what I like to achieve and want to do in the future. I love my community but like to see new cities and places. Thank You!
