The Return of the "Alter-Leg"

Division: Health Sciences / None

Category: Senior

Region: Cape Breton

City: Sydney, NS

School: Riverview High School

Abstract: The "Alter-Leg" is an apparatus which has been created to relieve strain from the muscles and bones of the lower leg. The "Alter-Leg" takes away the disadvantages that come with using crutches and more! By getting one back on their feet and using their leg bones and muscles, they will heal sooner allowing the user to return to their normal lifestyle as soon as possible.

Biography

hey Im Mike Maclsaac and I am 16 years old. I go to Riverview High School in Coxheath, Nova Scotia. I enjoy playing hockey, drumming, skateboarding, snowboarding and lots lots more.
