

CWSF 2009 - Winnipeg, Manitoba

Shane Stevenson

Lighting the Way (Can You See The Light - Take II)

Division: Health Sciences / Automotive

Category: Intermediate

Region: Alberta Central East

City: Hanna, AB

School: J.C. Charyk Hanna School

Abstract: My project is a continuation of the project i entered in the canada wide science fair the previous year. I had previously built a headlight wiper prototype on a plywood board. This year i installed it into a working vehicle so it can be used by pressing a button from inside the vehicle.

Biography

Hi, my name is Shane Stevenson. I am fifteen years old and my favorite thing to do is play hockey. I play Bantam Hockey and the team I support is the Calgary Flames. I also like to play video games, read books, and hang out with my friends. My favorite books are the Harry Potter series by J.K. Rowling. When I graduate I hope to get into the University of Alberta and study to become a Chiropractor. After that I hope to attend the Chiropractic College in Vancouver. To do this I will need good marks and be an honour student. I am a very competative person and will always take the most extreme choice, unless it is completely and utterly dangerous. My favorite subjects in school are Science, Math, and Home Economics. If I cannot be a chiropractor I hope to become a High School and/or Junior High Teacher. I would also like to be a hockey coach as well. In school I play Badminton and Volleyball. I have many hockey and honour role awards and I collect hockey pucks (especially Calgary Flames ones).
