Jennifer Prior

Does the Ball Make a Difference?

Division: Physical & Mathematical Sciences

Category: Intermediate

Region: Fraser Valley

City: Chilliwack, BC

School: Chilliwack Secondary

Abstract: This project was testing whether a dimpled field hockey ball would travel further then a smooth field hockey ball being hit at the same velocity each time by the same machine.

Biography

My name is Jennifer Prior, I am a grade 10 student at Chilliwack Senior Secondary in Chilliwack British Columbia. After high school my plans of post secondary education will continue onto university. My dream would be to attend the University of British Columbia or the University of Alberta. My goal in life is to become a doctor. I have many interest outside of my education; I played on the junior girls basketball team, I participate in Chilliwack's spring league field hockey, I cross-country run and do yoga as well. For the past two years I have volunteered my time at Chilliwack's hospital. In addition I am a participant of my schools environmental, youth for youth and African relief club. I love to be outside as much as possible and enjoy the wonders of nature.
