

CWSF 2010 - Peterborough, Ontario

Mikaela Brough, Jenna D'Aurizio

No Brainer? I Think Not!

Division: International

Category: Junior

Region: Bay Area

City: Oakville, ON

School: W. H. Morden Public School

Abstract: Our study was designed to examine the relationship that exists between cerebral hemisphere dominance and basic language skills. Our tests showed that left brained subjects were further advanced in language skills than the right brained subjects that were tested. The data from this study can be used to enhance our education system by providing better learning strategies to strengthen language skills among future generations.

Biographies

Mikaela - I am a 12 year old student, currently in the gifted program, at W.H. Morden School in Oakville. I enjoy exploring the world around me. I participate in some extracurricular activities at school, and enjoy rhythmic gymnastics, reading, and hanging with my friends.

Jenna - Hi, my name is Jenna D'Aurizio and I currently attend grade 7 at W.H. Morden Public School in Oakville, Ontario. I participate in competitive soccer, and playing in my school's Concert Band. I enjoy many academic competitions, receiving Honorable Mention for ExploraVision the past two years and multiple writing awards. This will be my first CWSF, and I am excited to be representing Ontario!
