Evergreen Ever Gone? The Anti-cancer Properties of Oils from Evergreens

Challenge: Health

Category: Senior

Region: Chignecto West

City: Upper Stewiacke, NS

School: South Colchester Academy

Abstract: Discovering new treatments for cancer that are effective in killing and preventing cancerous growth would be of great importance. In this project, The essential oils from five evergreen trees were extracted. These oils were then tested to see if they have an effect on two lines of cancer cells. Each evergreen tree was successful in killing the cancer cells, however the best was Red Spruce.

Biography

My name is Natalie Fisher, I am 18 years old. I attend South Colchester Academy in Brookfield Nova Scotia. Next year I am planning on attending Dalhousie University, to take my B.Sc.
