

CWSF 2011 - Toronto, Ontario

Annie Marie Ross, Chris Lansang

Fish, Fish, Fish

Challenge: Discovery

Category: Junior

Region: St. James-Assiniboia

City: Winnipeg, MB

School: Bruce Middle School, George Walters Middle School

Abstract: This project investigates the Visual, Auditory and Kinaesthetic learning system. It tests an individual's learning preference, and how that can be applied to a situation within classrooms in which memorization is key. Also, we tested repetition and colours, and how they play a role. We learned about how these work, and the brain's functions in relation. In the end, survey results matched the final tests.

Biographies

Annie Marie - My name is Annie Ross and I am in grade 8. At the divisional science fair, I won the CWSF award, 2 years in a row :) In my spare time, I speak somewhat-fluent/spontaneous German, play piano, watch Glee, go to Starbucks, go biking, play badminton, and listen to Bruno Mars. In the past four years I have been in Divisional Musical Theatre, recently playing an extremely odd chicken named Lowbutt... the name is strange.. in the musical Honk. I love spending time with my friends, and with my family, too. In school (I hate to brag...) but I do quite well with marks which is quite good in my opinion. My favourite subject (apart from science, of course...

Chris - Hello, the name's Christopher Lansang, but "Chris" for short is just fine with me. I'm currently a grade eight student at George Waters Middle School, situated in the fine town of Winnipeg, Manitoba. At my divisional fair I've been selected to head out on another adventure at Canada Wide, for the second year. I'm fourteen years old, and of Filipino background. Sports is an interest of mine, as well as eating lots of food. So those two interests balance each other out. I've been in Divisional Musical Theatre for four years in a row, with my latest role being the Cat, the somewhat evil villain of "HONK!". My favourite movie maker is Hayao Miyaz...
