Region: Parkland

City: Foam Lake, SK

School: Foam Lake Composite High School

Abstract: For my project i designed a saftey gaurd for the window of an excavator on the program Solid Works. I tested 3 objects against my project a I beam a solid concrete brick and a number 6 rebar. Then I used various formulas to find the otcome of my results. This project was not build physcaly it was designed and tested on the computer.

Biography

Micheal Last was born on a small farm in south eastern Saskatchewan. He enjoys taking part in various school activities such as Badminton and Drama crew. In his spare time Micheal is an avid sportsman, finding great joy in outdoor activities such as hunting and ATV operation. He is currently enrolled in grade 8 at Foam Lake Composite School and is a large part of the school community. In the future he plans to attend either a form of post-secondary education or a trade school such as SIAST. Micheal is known by all who know him as a funny and easy-going individual who always is able to see the bright side of life.
