

CWSF 2015 - Fredericton, New Brunswick

James Lovett

Super Sign

Challenge: Information

Category: Junior

Region: Simcoe County

City: Barrie, ON

School: St. Monica's E.S.

Abstract: I decided to do this project because I like to help people. I created my project Super Sign to help people learn sign language in an easy and interactive way. The program that I used to code my project was Scratch 2. Scratch turns code into easy to understand blocks. The sign language I used in my program is American Sign Language.

Biography

My name is James Lovett. I'm 13 years old and from Barrie Ontario. I have a wide range of interests from wilderness canoe trips to training English Springer Spaniels! I have my black belt in karate and have completed the bronze medallion in swimming. The idea for creating "Super Sign" came to me after a lot of brain storming. Creating an educational and fun game to help people learn a new skill or language really interested me. I'm hoping to expand my coding language into Python. If I were to give advice to someone creating a science fair project, I would say "do something you're passionate about then nothing can go wrong!" My passion is learning new skills. "Live as if you were to die tomorrow. Learn as if you were to live forever." Mahatma Gandhi
