

CWSF 2015 - Fredericton, New Brunswick

Josey Rustad, Celina Earl

Seeing is Believing

Challenge: Health

Category: Intermediate

Region: Southeast Saskatchewan

City: Avonlea, SK

School: Avonlea School

Abstract: Subjects observed their leg reflection image being stimulated by various sensations. Most of the subjects adopted the mirror image as their real limb and felt these sensations in the mirror image even though they weren't actually physically stimulated.

Biographies

Josey - My name is Josey Rustad. I am in grade 10 at Avonlea School. I live on a farm outside of Avonlea with my mom and one of my four siblings. I enjoy travelling, concerts, spending time with my friends and my animals. I play volleyball and badminton in my school. I'm not completely sure what I want to do for my career yet, but I'm leaning towards trades, either mechanics or welding. I've always wanted to go to Fredericton and I am excited for this experience.

Celina - My name is Celina Earl. I am a grade 10 student attending Avonlea School in Saskatchewan. Some of my hobbies include dancing, volleyball, badminton, and track and field events. I also enjoy travelling the world and exploring new places. This is my first CWSF and I am honored to be able to attend this one in Fredericton.
