

## CWSF 2006 - Saguenay, Québec

### Eric Pushie, Mike Parsons

#### Slicing the Temperature

**Division:** International

**Category:** Junior

**Region:** Cape Breton

**City:** Sydney, NS

**School:** Malcolm Munroe Memorial Jr High School

**Abstract:** This project tested the effects of temperature on the distance and direction of a golf ball. A series of heated and chilled golf balls were hit using both irons and drivers. It was determined that heat had a positive affect on the outcome of the ball whereas cold a negative affect.
