

## CWSF 2006 - Saguenay, Québec

### Connor O'Neill

#### Fuel of the Future

**Division:** Engineering & Computing Sciences

**Category:** Junior

**Region:** Chatham-Kent

**City:** Chatham, ON

**School:** St. Ursula E.S.

**Abstract:** I made bio-diesel out of 3 different types of vegetable oils and I blended it with regular diesel fuel. I am going to determine which vegetable bio-diesel will create more heat and burn the least amount of bio-diesel in the shortest time.
