

CWSF 2019 - Fredericton, New Brunswick

Kiera Pauze-Reid, Lily Mick

Under Pressure

Challenge: Information

Category: Junior

Region: Algoma Rotary

City: Sault Ste Marie, ON, Echo Bay, ON

School: Boreal French Immersion Public School

Abstract: We tested peoples' ability to remember a collection of images. Half of the 72 subjects saw a 1-minute timer while they studied the image. The other half was timed without their knowledge. We then analyzed the data to find out who performed better under pressure; those who saw the timer, or those who did not.

Biographies

Kiera - In my spare time I enjoy listening to music, doing math, reading, sports, and writing. I would someday like to attend law school. This year, I wrote a Remembrance Day poem celebrating the lives of soldiers, which I entered into the Royal Canadian Legion winning first place twice and is currently competing at the next level. Winning the science fair is the best achievement I have received to date. For the inspiration for our project "Under Pressure", Lily Mick and I relived the timed-test horrors in school. We noticed that it was nearly impossible to focus and concentrate when we could see the time counting down. Instead of paying attentio...

Lily - My hometown is Echo Bay, Ontario which is a small community outside of Sault Ste. Marie, Ontario. In school, I enjoy all sports such as basketball, soccer, volleyball, track and field, cross-country and more. My extracurricular activities include singing, dancing, playing hockey and ringette. When I am older, I would love to be a dentist or a lawyer because both jobs are of interest to me. In the past, I have received multiple awards for my sportsmanship and for my talent in singing. I enjoy travelling with my family and I am excited to experience New Brunswick for the very first time. My science partner, Kiera Pauze-Reid and I decided to do
