Hannah Gordon-Rogers

The Influence of Colour Suggestion on Taste

Challenge: Health

Category: Intermediate

Region: Beaufort-Delta

City: Inuvik, NT

School: East Three Secondary School

Abstract: The purpose of my science fair project was to determine how age affects how easily someone is persuaded. I answered this question by focusing on how age affects the ability to be persuaded to believe Froot Loops taste like different flavours. I thought that people who are younger will be more easily persuaded to believe that Froot Loops taste differently.

Biography

Hello! My name is Hannah, I am 14 years old and this is my first time going to New Brunswick and I hope to have fun! I am born and raised in Inuvik, NT (really freaking north) and love swimming!
