

## CWSF 2005 - Vancouver, British Columbia

### Chris Brookes, Reid Munro

#### Visual Vectors Calculator

**Division:** Engineering & Computing Sciences

**Category:** Senior

**Region:** Southeast Saskatchewan

**City:** Weyburn, SK

**School:** Weyburn Comprehensive

**Abstract:** Our project is a user-friendly program built with Visual Basic that attempts to assist the user, through a series of steps, how to solve vector resolution questions. It is intended to assist high school physics students by displaying diagrams and all involved work while explaining each step in detail.
